

TECHNICAL DATA SHEET

MAIN CHARACTERISTICS

HALOGEN FREE RIGID CONDUIT TG20xx - TG21xx SERIES

CARATTERISTICHE TECNICHE COSTRUTTIVE

Material: made of halogen free technopolymer on NORYL base with high resistance to UV rays.
Self-extinguishing V1 degree to UL94.
Standard colours: grey RAL7035
Compression resistance: 750 N.
Classification: 3342
Application temperature: minimum -25° , maximum $+90^{\circ}$.
Made in compliance with EN 61386-1, EN61386-21 standards.
Test report: IMQ.
Products in compliance with RoHS - 2002/95/CE directive.
Products meeting the essential requirements of L.V.D. 2006/95/CE
Made in Italy.
