GENERAL
CATALOGUE 2012

electrical installation systems

■ ■ ■ ■ ELETTROCANALI

Dear Customer,
ELETTROCANALI is an Italian company which designs, manufactures and sells trunking systems and equipments for a complete industrial or domestic electrical system.

ELETTROCANALI is proud to present its new general catalogue which has been widened and enriched in the latest years also thanks to all the suggestions and the tips we have received.

We indicate below all the most important news of this catalogue.

- The trunking range has been fully rationalized and several accessories have been added to the skirting board and wall trunking system.
- In the industrial systems you can find the new vertical 63A interlocked sockets with fuse holder, the new flush mounting boxes for dry-lining walls, the new industrial and domestic cable reels. New models of assembled boards ASC/ASD with 19 modules and 8 sockets have been added to the family.
- The new alveolar boards and the flush mounting boxes with protection lid have been introduced in the enclosure range.
- The conduit range has been further rationalized and modernized in order to keep up with the market demands.

Luca Valsecchi
Marketing manager

A CONSTANTLY GROWING

Page 23-24

Tower box for 4-6 module devices in white or slate grey for skirting board and wall trunkings 70x20 and 130x28. The installation turns out to be quicker and easier especially if the trunking 130x28 with 5 compartments is used.

Tower box for 4-6 module devices in white or slate grey for skirting board and wall trunkings 70x20 and 130x28

Page 143-145

Flush mounting box for inflammable dry-lining or wooden walls for vertical interlocked sockets with fuse holder 16/32/63A and 24V safety sockets.

All the problems connected with the installation of the industrial sockets in dry-lining or wooden walls can be solved only by a box type.

Flush mounting box for inflammable dry-lining or wooden walls for vertical interlocked sockets with fuse holder 16/32/63A and 24V safety sockets

Page 182

Empty construction site board, complete with emergency button, handle, double key, unbreakable hinges, suitable for cable inlet, 19+19 modules, for 6 vertical interlocked sockets with fuse holder 16/32/63A and 24V safety sockets, or for 12 industrial sockets 16/32A which can be mounted only by the proper flanges.

Empty construction site board suitable for 6 vertical interlocked sockets with fuse holder or 12 industrial sockets

Page 182

Empty construction site board, complete with emergency button, handle, double key, unbreakable hinges, suitable for cable inlet, 19+19 modules, for 8 horizontal interlocked sockets with fuse holder 16/32A.

Empty construction site board suitable for 8 horizontal interlocked sockets with fuse holder

INDUSTRIAL ENTERPRISE

Page 162-164

Distribution boards type ASD fixed with 19 modules or type ASC mobile with 8 industrial 16A sockets.

Available in 16 different combinations they meet the different distribution needs in different places, like workshops, markets, fairs, shows and public events.

Different combinations of sockets and protection devices available on request.

Assembled boards type ASC/ASD 8 industrial 16A sockets

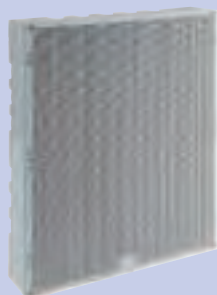

Page 200-202

New domestic cable reels with 4 sockets P30/P17 with metallic support – cable length 15 and 25 mt.

New series of industrial cable reels with 2 sockets with metallic support – available also with cable H05VV-F.

Domestic cable reel with 4 schuko/italian sockets – cable length 15mt

Industrial cable reel with 2 sockets and cable H05VV-F

Page 267

Boards made of halogen free shock-resistant technopolymer with a double-structured reversible door: alveolar or smooth for the max. installation facility. Available in 10 different sizes all equipped with anticorrosive steel screws, protection degree IP 40 and double insulation.

Boards with alveolar or smooth reversible door

Page 275

Junction boxes made of shock-resistant orange technopolymer, complete with white (RAL 9001) cover and rigid cardboard lid with pull-tabs. Available in 8 sizes from 92x92x45 to 480x160x70.

Flush mounting boxes with protection lid

Elettrocanali products, exported in over 40 countries, are all designed and manufactured in the Italian factories. If you want to be always informed on the new products, the promotional sales or to get in touch with the company you can visit our website, which is constantly updated.

www.elettrocanali.com

THE COMPETENCE PERFECTED IN 40 YEARS FOR A WIDER AND

This enterprise was founded at the end of the 70's and was strengthened in the second half of the 90's, also through the merging with another company located in Southern Italy and the opening of the new production facilities in Pedrengo.

Elettrocanali group has steadily grown for 40 years thanks to two basic features: the different experiences gained by working in also geographically different places and the common purpose to work in a serious well-organized creative way.

The organization has presently 4 manufacturing sites all in Italy and 2 commercial and logistical subsidiaries, one located in France and the other in Spain.

Elettrocanali exports in more than 40 countries all over the world and this new catalogue clearly shows that the product assortment has been constantly widened.

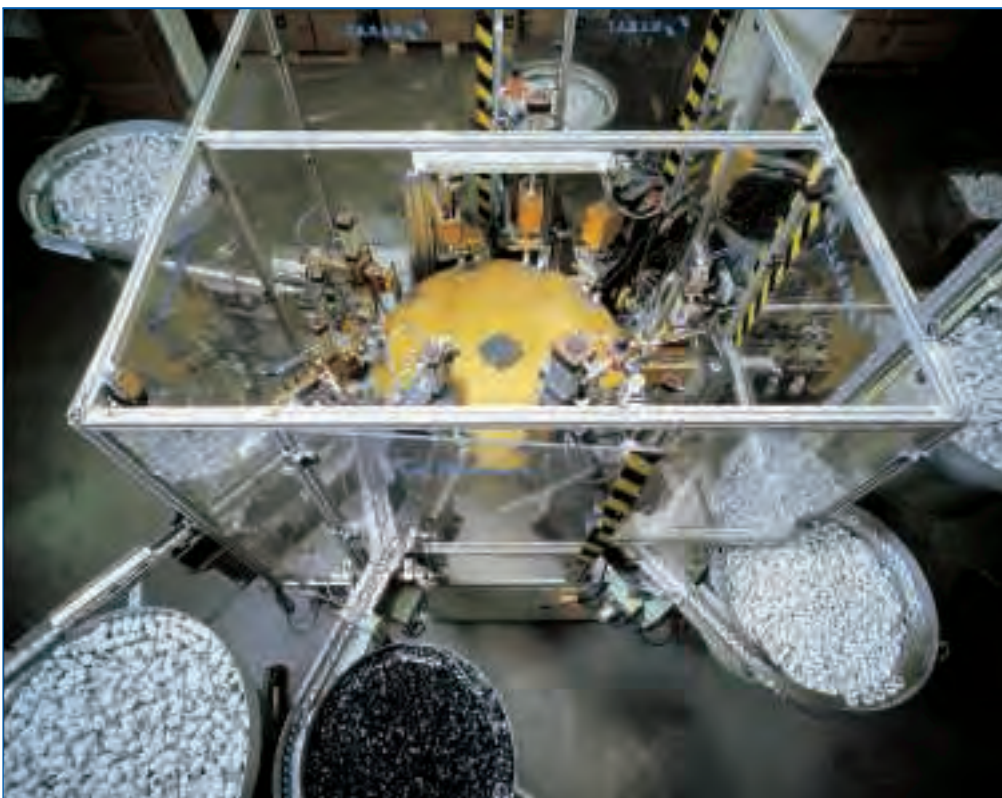

Our customers, satisfied with the products and the service, actively participate in this broadening process with their requests and suggestions for new products demanded on the different markets.

The offer is completed by an efficient sales team, capable of giving a prompt and quick service thanks to a rational distribution network.

A very important role in this successful enterprise is undoubtedly played by the human resources, who spend their energy, know-out and ability for the common target: get on growing thanks to the customers' satisfaction.

THE COMPETENCE PERFECTED FOR A WIDER AND WIDER PRO

Quality has always been a must for Elettrocanali, that has always invested in efficient up-to-date machinery, rationally installed in the different production facilities. The company has been certified ISO 9001 since 1998, but the quality is strongly and constantly pursued also by obtaining several patents which guarantee the functionality and the safety of the products.

Both the employed raw materials and the products comply with the requirements of the reference Standards. In particular the products have the approval of the most important national and foreign certification bodies, that test the items according to the reference standard, issue the corresponding certificates and carry out periodical and systematic controls both in the company and on the markets in which the products are distributed. According to the quality manual, the internal laboratory executes all the necessary tests aiming at keeping the quality standard and its stability in the time.

Elettrocanali customers can any time ask for the certificates and the conformity declarations as a proof of the quality of the purchased and installed products.
