

# eta THE e COR ENCLOSURE

- Use of new Silicone seal for the new ranges of stainless steel products.
- Provided with AISI316L stainless steel hinges.
- Front door, produced with formed corners.
- A new locking cover for boxes with a double door
- Doors manufactured from pre-satinized stainless steel sheet (AISI304L or AISI316L) covered with PVC film for additional protection and provided with new packaging.
- Front door with a reduced dimension of the door angle, in order to permit the door opening in case of boxes placed side by side.
- Standard supplied with a mounting plate that is provided with slots in the corner, to allow a simple installation.

## NEW ETA eMOX MONOBLOC CABINETS

Stainless steel 304L version available as standard, stainless steel 316L version on request.

### FEATURES

1. Unique symmetric monobloc structure with top, bottom and side panels welded.
2. Front and rear aesthetic profiles to comply with E NUX style.
3. Removable rear panel and possibility to assemble rear door (E NUX door and rear panel).
4. Lifting with 2 eyebolts.
5. Front inserted mounting plate (EUPA) included in the supply.
6. Innovative opening system with a unique lever mechanism, unique design and:
  - 3-point locking for H=1600mm
  - 4-point locking for H=1800/2000mm
  - With possibility to mount different inserts.
7. Effective sliding guides system integrated in the bottom.
8. Modular cable entry bottom with adjustable baseplates and gasket.
9. Reversible door with stiffening frame.
10. Vertical uprights available as accessories to create the same inner structure of E NUX cabinet.
11. Wide range of standard accessories of E NUX system (door, rear panel, mounting plate, complementary accessories).
12. Differentiated colour impact: RAL7035 for the cabinet and new colour RAL5020 matched with aesthetic profiles, handle and plinth.
13. Easy-to-assemble modular plinths EUZE. Protection rating: IP66 (single door), IP55 (double door) - Nema 12 - IK10.

## NEW ETA ecomp COMPACT ENCLOSURE

Stainless steel 304L version available as standard, stainless steel 316L version on request.

### FEATURES

1. Visual uniformity with monobloc range E MOX and suite cabinets E NUX.
2. Completely welded enclosure.
3. Lifting with 2 eyebolts (same of E MOX cabinet) or wall-mounting with brackets (same of ST boxes).
4. 3-points locking system with the possibility of mounting different inserts.
5. Front inserted mounting plate included in the supply.
6. Door with reinforcement sendzimir profiles provided with a centre-to-centre distance that is identical to the one of the E NUX door, for the fixation of the same rail.
7. Possibility to assemble vertical / horizontal profiles and fast-fixing brackets.
8. Modular cable entry bottom with adjustable baseplates and seal.
9. Easy installation of the mounting plate and effective sliding thanks to specific guides.
10. Differentiated colour impact: RAL 7035 for the cabinet and new colour RAL 5020 matched with aesthetic profile, handle and plinth.
11. Fitting with ETA range of accessories and easy-to assemble modular plinth EUZE. Protection rating: IP55 - Nema 12 - IK10.
